Corporate Communications

We ensure that every touchpoint with the investment community is professional and impactful. From drafting press releases to preparing investor presentations, our team specializes in translating complex technical data - from resource estimates to clinical trial results - into compelling narratives.

Digital & Market Outreach

Visibility is the cornerstone of liquidity and in today's market a digital presence is a requirement. Richmond utilizes a multi-channel approach to ensure your company stays top-of-mind for investors. We work with you to prepare regular communications, including social media posts, and provide real-time engagement with existing and potential shareholders.

Strategic IR Advisory

Successful investor relations is more than just distributing news; it is about building long-term trust. Richmond works with junior and mid-tier issuers to develop a proactive IR strategy. From perception audits to peer group analysis, we find out how the market views your company and, if necessary, refine your message and goals to highlight value drivers.

Corporate Governance and Continuous Disclosure

Disclosure requirements are constantly changing. At Richmond, we ensure all your corporate disclosure meets the rigorous standards of the various national instruments, bridging the gap between high-impact messaging and regulatory compliance.

Tailored IR and communications solutions for junior and mid-tier public companies across the North American capital markets.
